

Announcing a New Early Learning Center for Our Parish School

We are very pleased to be able to announce that work will take place over the summer to create a licensed, two classroom Early Learning Center on the ground floor of our school. This represents an expansion of our existing part time preschool. Our new facility will be ready for the opening of school this Fall, and enrollment is underway.

Our Lady of Guadalupe's new, expanding Early Learning Center will meet the needs of families in our community. Interest is high and we are reaching capacity in enrollment for our new program. By renovating and expanding to full-day programming we can increase the level of kindergarten readiness instruction, better provide for motor development and social skills interactions, and provide the all-day options that working parents need. Families are seeking a quality program that goes beyond basic day care. Our programs include instructional specialists such as Music, Spanish, Library, and PE that brings Early Learning into the school house. Our K thru 8th grade students are able to model behaviors and attitudes for our youngest Guad's in the ELC. By expanding to a full-day program, we also provide our Guadalupe families with the full continuum of education options for 3 years of age, thru 8th grade. Families have one less school decision to make, and one single place where they know their children are loved, nurtured, and will grow in Christ's image. Our graduates are well prepared for high school, and it begins in the ELC.

Thank you to all who have helped bring us to this moments.

Fr. Jack, Pastor

Anton Kramer, Principal
